SECTION 6**REASONS WHY A CERTIFICATE OF ACCEPTANCE IS REQUIRED**

The owner (or the owner's predecessor in Title) carried out building work for which a Building Consent was required, but a Building Consent was not obtained because:

A Building Consent could not practicably be obtained in advance because the building work had to be carried out urgently (delete one of the following)

(a) for the purpose of saving or protecting life or health or preventing serious damage to property as follows (explain in detail):

OR

(b) in order to ensure that a specified system was maintained in a safe condition or made safe as follows (explain in detail):

OR

The Building Consent Authority that granted the Building Consent is unable or refuses to issue a Code Compliance Certificate in relation to the building work, and no other Building Consent Authority will agree to issue a Code Compliance Certificate for the building work.

SECTION 7**COMPLIANCE SCHEDULE**

The specified systems for the building are as follows:

The following specified systems were altered, added to, or removed in the course of the building work:

There are no specified systems in the building.

SECTION 8**ATTACHMENTS**

The following are attached to this application:

- Project Information Memorandum
- Plans and specifications
- Certificates from personnel who carried out the building work
- Energy work certificate

CERTIFICATE OF ACCEPTANCE

NOTICE TO OWNERS

The Building Act 2004 gives owners an opportunity to apply for a Certificate of Acceptance for the following reasons:

1. To cover building work carried out in urgency to avoid health and safety risks, under Section 42 of the Building Act 2004.
2. To cover any work carried out after December 1992 by the existing or previous owner(s) as named on titles, where a Building Consent should have been taken out.
3. Where a private Building Certifier, is unable to, or refuses to issue a Code Compliance Certificate for a Building Consent issued prior to 31 March 2005. This is limited to Certificate of Acceptance applications received prior to 31 March 2010, as noted in Section 96(1) of Building Act 2004.

Conditions for approving an application

1. A Certificate of Acceptance cannot be applied for in place of a Building Consent, unless emergency work was carried out (refer to reason 1 above).
2. All plans and specifications normally required for a Building Consent are to be supplied with the Certificate of Acceptance application. Submitted plans and specifications must be to a high standard. Insufficient or poor quality information may result in delays in processing your application.
3. A Certificate of Acceptance will only cover items that that Council can readily inspect to ensure compliance with the New Zealand Building Code. Council may exclude items that cannot be inspected by Council Officers.
4. All applications need to include the following:
 - Detailed plans and specifications
 - Design and/or supervision certificates
 - a) for trusses
 - b) engineering
 - c) electrical
 - d) plumbing
 - e) drainage
 - f) roofing and cladding installers
 - A current Certificate of Title
 - A report from a suitably qualified consultant (Building Consultant or Structural Engineer) on the applicable construction and compliance with the Building Code.
 - A letter from the present owner explaining why a Building Consent was not obtained (if applicable, ie not required for reason 3 above) prior to the construction applicable to this Certificate of Acceptance.
5. It will be required for specific design components of a project to include the design engineer's PS1 Certificate and the PS4 for the 'Construction Review' of those components.
6. If a PIM has previously been issued by Council for this project, you should include a copy with your application. If this is not available, then please arrange through our Customer Support Team to provide a copy.
7. Please be aware that an inspection(s) will likely be carried out for this application. The inspecting Building Officer may contact you directly to arrange a suitable time to visit during normal working hours or you will be asked to arrange an inspection time after your application has been processed by a Building Officer.
8. The fees that apply to a Certificate of Acceptance are:
 - a) A 'deposit' at the value listed in the current Fees and Charges Schedule. This only covers a portion of the total fee.
 - b) Processing costs by various departments and the 'Document Management' (DMS) levy.
 - c) Onsite 'Inspections'.
 - d) Levies for Building Research Association (BRANZ) and Department of Building and Housing (DBH).
 - e) Charges for any Government Levies or Council services, ie Utilities and Rooding.
 - f) Fees, charges and levies that would have been payable had the owner or owner's predecessor in title applied for a Building Consent.
9. Applicants need to be aware that if a 'Notice to Fix' has required an application for a 'Certificate of Acceptance', then that does not negate the possibility of prosecution under Section 40 of the Building Act 2004.
