Original SUB No.	Original SUBMITTER Name	ISSUE	FURTHER SUBMITTER	SUPPORT / OPPOSE	FURTHER SUBMITTER Comments
3	Hawkes Bay Regional Council (HBRC)	Stormwater	Hawke's Bay Project Management	Doesn't say	<p>Comments: The discharge of stormwater to land is a Permitted Activity (at worst Controlled Activity) and I question HBRC comments around overland flow effect etc when the land in general has very good soakage and is identified as being over the confined aquifer.</p> <p>Notes that with any building consent application the stormwater design must meet the current planning rules and guidelines set by HBRC and HDC discharge consent. These checks and balances at building consent stage will avoid any adverse effects in relation to stormwater quality and quantity.</p>
